Arlene Mazzotta Fund for MARC

A Legacy of Helping Others

Arlene Mazzotta was a force in the community. In addition to founding and nurturing A.R. Mazzotta Employment Specialists to be the successful business it is, she championed where we work, live, and play each and every day. Arlene accomplished much while celebrating life to the fullest.

Celebrating Women

It's Women's History Month and Wednesday was International Women's Day, a time to celebrate women's accomplishments. For decades, March 8th has been a day for recognizing women's economic, political and social achievements. It also serves to point out the ongoing struggle for gender equality worldwide. Consider supporting women today and every day by contributing to the [Sari A Rosenau Fund for Women and Girls](#) - proof that together women can and do make an impact in the lives of women and girls right here in Middlesex County.
